6,000 inmates escape from high-security Mozambique prison

MAPUTO, Dec 26: At least 6,000 inmates escaped from a high-security prison in Mozambique's capital on Christmas Day after a rebellion, the country's police chief said, as widespread post-election risks and violence continue to engulf the country. Thirty-three prisoners died and 15 others were injured during a confrontation with the security forces, the police chief Bernardino Rafael added. The prisoners fled during violent protests, that have seen police cars, stations and

the capital, started around midnight on Wednesday after "agitation" by a "group of subversive protesters" nearby, Rafael said, adding that prisoners at the facility snatched weapons from prison warden and started freeing other detainees. "A curious fact is that in that prison we had 29 convicted terrorists, who they released. We are worried, as a country as Mozambique, as members of the defence and security forces," said Rafael. "They (protesters) were making noise demanding that they be able to remove the prisoners who are there serving their sentences," said Rafael, adding that the protests led to the collapse of a wall, allowing the prisoners to flee. He called for the voluntary surrender of the escaped prisoners and for the population to be informed about the fugitives. -AP

Russia foils Ukraine-ordered plot to kill top officers

MOSCOW, Dec 26: Russia's top security agency said on Thursday that it has arrested several suspects accused of involvement in an alleged Ukrainian plot to assassinate senior military officers, an announcement that follows the killing of a top Russian general last week. The Federal Security Service, a top FSB successor known under its Russian acronym FSB, said in a statement carried by Russian news agencies that it had arrested four Russians accused of making prepara-

tions to kill senior Defence Ministry officials. The FSB said that the suspected organisers of the attacks were planning to kill one of the senior officers using a remotely-controlled car bomb. It added that another top military official was to be assassinated by an explosive device hidden in an envelope. The agency didn't name the military officers who were targeted in the alleged plot. The FSB has arrested a suspect, a citizen of the Central Asian nation of Uzbekistan, and claimed that he said that he had been recruited by Ukrainian special services. Kirillov, 54, was the chief of Russia's Radiation, Biological and Chemical Protection Forces. These special troops are tasked with protecting the military from the enemy's use of nuclear, chemical or biological weapons and ensuring operations in a contaminated environment. Russian President Vladimir Putin described Kirillov's killing as a "major blunder" by Russia's security agencies, saying they should learn from it and improve their efficiency. -AP
